MFG365 TORCH

MIG/MAG - FUME EXTRACTION

Technical Data

- With connection to exhaust system
- Light Weight
- Many Options of Extraction Nozzles: made of aluminum, conical or inverted
- Adjustable extraction control
- Option of nozzles for difficult access joints
- Easy cleaning and maintenance
- Air Cooled

Recommended Applications

- Poorly ventilated workspaces
- Production manufacturing
- Suitable for welding with Solid, Flux cored, Aluminum and Stainless Steel Wires.

| Code | Description | Mes. | Stock |
